

PIP Music™

Welcome to Progressive in Paris Music™ the first and only French based label dedicated exclusively to Progressive House...

What??? Progressive house from where? Paris? Yep, it is correct... We are here to provide you with our vibe, a different and fresh home made Progressive House with a serious Parisian twist... We are here to push new, ground breaking Prog artists such as Alex Plastik, Nacho Casco & Ariel Lanfrit.

Long time put aside or totally absent from the French electronic scene, Progressive House is today maturing and flying around the planet with no limits or barriers.

That is why we needed to make this project happen. The first and only French label dedicated exclusively to Progressive House. Progressive in Paris Music™ aka PIP Music™ is brought to you by 3 talented Parisian friends, DJs and producers : Lucas Konk West, Alex Plastik & Dj Corleone...

These 3 guys are the strong young generation of producers from Paris, believing that there is a scene, a spot for a new Progressive House, not only in France but also in this wide global world.

They believe in a different trend, away from anything else... We are here for 'progress', for evolution, for a change! Come with us, come into PIP Music™!

Sound, Pitch!

Pitch? Yeah Progressive in Paris is something new, brand new. We are a group of talented producers initially from Paris but also from around the world believing that you are here to listen to that thing called Progressive, that you are ready to dance, that you are ready to sweat, and that you are ready to get physical with our sound... Our music is punchy, flavored by multiple influences brought by our passion for tasteful UK's Progressive sound but also from our love of House music and Tech House music. Our music is definitely Progressive House with our very own flavor and twist.
